Re: Solutia Education Connection

The following pages feature flag designs for the Solutia Education Connection program, incorporating the proposed theme and tagline.

One approach reflects Christy's suggestion to incorporate the "A+" graphic in an appropriate way, other than in the name Solutia. I think we have successfully integrated the "A+" into the word Education, by swapping it for the "a" and "t", respectively.

An alternate treatment features the "A+" framed by the shape of the state of Alabama.

In either case, we have endorsed the overall graphic presentation with the Solutia logo to further reinforce recognition for the Company. Please note that we will need the logo in a digital file format as quickly as possible. Could you please direct us to the proper person for obtaining what we need in this regard?

The initial 10 flags are recommended for indoor use and would measure 34 in. x 60 in. (With a longer lead time, we can produce all weather flags for subsequent distribution.) We would ship them for Thursday morning delivery as follows:

6 = Anniston	2 = Decatur	2 = Foley
Solutia Inc.	Solutia Inc.	Solutia Inc.
Atten: Blake Hamilton	Atten: Paul Meganck	Atten: Jim Green
300 Birmingham Highway	Courtland Highway	518 S. Bay Street
Anniston, AL 36201	Decatur, AL 36535	Foley, AL 36535
Phone: (205)231-8427	(205)552-2204	(205)231-8427

We will also be producing "crack and peel" self-adhesive stickers for use on blank press kits folders. Do you need us to provide and ship blank folders as well?

Thanks for your quick response. I can be reached by phone with your comments.
