

*Above are five Elliott C-W splashproof motors driving various pulp refiners. The 250-hp, 1170-rpm motor in the foreground drives a hydrafiner. The next two are 200-hp, 435-rpm motors driving jordans and the last two 200-hp motors are driving unifiners.*

*At right is another view of the 200-hp motors driving the jordans.*
