

Lead Industries Association, Inc.

292 Madison Avenue • New York, N. Y. 10017 • Telephone: (212) 532-2373

Environmental Health Department

November 3, 1980

TO: Official Members - LIA
LIA Environmental Health Committee

FROM: Jerome F. Cole

Enclosed is a copy of the Objections and Comments of the Lead Industries Association, Inc. in Connection with OSHA's Supplemental Rulemaking Hearing on Lead.

As you may recall, in its decision on August 15, 1980, the U.S. Court of Appeals for the District of Columbia remanded the OSHA Lead Standard back to OSHA for a period of six months to collect additional feasibility information for a number of industries. OSHA requested that information on these industries be submitted by October 27, 1980 and they set the dates of November 5, 6, 7, 1980 for a public hearing in Washington, D.C.

The enclosed Objections and Comments were submitted to OSHA and are part of the hearing record. LIA is planning to participate in the public hearings.

Sincerely,

Jerome F. Cole
Director, Environmental Health

January 8, 1981

TO: Official Members - LIA
All Members of the LIA Environmental Health Committee

FROM: Jerome F. Cole

On January 7, 1981, the Lead Industries Association petitioned the Supreme Court of the United States with a request that they review the decision of the Court of Appeals on the Occupational Health Standard for Lead.

Enclosed is a copy of the Petition for a Writ of Certiorari which was prepared by our legal counsel, who also served as liaison counsel for the industry petitioners and intervenors in this case.

Sincerely,

Jerome F. Cole
Director, Environmental Health
