3475 Plymouth Road
Ann Arbor, Michigan 48105

Dear Pete:

Attached is a recipe for Geon 87241 Almond 040. You presently have on test our 87241 Nat 021 and White 120. These tests should be completed. Therefore, we feel this material will not need further testing. We would like this color added to our recipe approval.

Please let us know and send approval sheets to us and our plants.

Thanks.
