DuPont Physician's/Veterinarian's Notes: Date:
Time:

At a Sunoco refinery in Philadelphia, 3 contractor employees were working to clean up a 10' by 10' area of ground and stones into which the above compound had been leaking for the past year. They cleaned it up by shoveling with hand shovels on Tuesday and Wednesday and Thursday of last week (about 10) days ago. They were wearing full coveralls and clothing which were closed at the ankles and wrists, safety glasses, hard hats and heavy duty work boots but no respirators. The ground was stained but dry.

Today Mr. Ruggiero received a letter from their attorney claiming that they are suffing health effects from this work with the Oil Red B Liquid. Type of health effects were not stated.

Mr. Ruggiero asks for some information about the compound.

Information Given About Product/Process: Discussed the toxicity of this compound.

Source of Information:

Recommendations: I sent Mr. Ruggiero an up to date MSDS on this compound.

Follow-Up (if any): <>

Signed:
Evan D. Riehl, M.D.
