Dr. Willard Machle,

Dear Bill,

Upon my return to Norfolk from Wilmington and Charleston I again contacted the Gulf terminal as well as Dr. Woods.

I was unable to get in touch with Dr. Woods until about one half hour before my boat left so I took the privilege of calling Dr. Rodriguez regarding [REDACTED]. Both Drs. Woods and Rodriguez advised that Jordan was progressing nicely although occasionally flighty. His bowels are moving naturally and he is eating fairly well. Dr. Rodriguez wanted to know your address which I gave him.

Dr. Woods advised that Williford had come in again complaining of dizziness, this was Thurs nite. Dr. Woods stated that he had given him calcium as you suggested and believes he will come along OK. White is OK.

[REDACTED] has been coming to work about every other day and Beardon stated that he thought he was OK - but you know Beardon. I did not believe it wise to call Dr. Steingold so refrained from doing so. I did talk to [REDACTED] brother Joe who works at the Gulf plant and he said that [REDACTED] was still quite nervous but outside of that thought he was OK. I learned something else which might have bearing on this nervous condition and that is about a year ago [REDACTED] ran over and killed a man and ever since then has been inclined to be morose and very nervous.

For your information I am enclosing a copy of the report I have given [REDACTED] on the case- no one knows that I have sent you this. It will probably not contain all he wants to know but I believe it better to say too little than too much.

I surely appreciated being with you last week and certainly feel that I have learned a lot and hope that we will be able to get together again real soon. If you write me I believe it would be advisable to send it to my home, address of which is above.

kindest personal regards
