Subject: FW: Informational Documents Updated

Stuart,

I sent this out on Friday, but I had a different e-mail address for you.
Let me know if you have any problems with these documents.

George

Subject: Informational Documents Updated
Importance: High

Benzene Consortium Stakeholders,

An additional level of review occurred during the course of this last week that resulted in an update to the three informational documents we sent out earlier this week. A more detailed legal review was a major part of these revisions. These documents are posted to the Consortium web page and hot-linked below (<<http://www.api.org/benzene-consortium>> www.api.org/benzene-consortium; Username = (); Password =). Comments and constructive criticism are welcome.

*

<<http://www.api.org/benzene-consortium/Information/OnePagerFINAL.doc>>
Proposed Studies on the Risk of Benzene-Induced Diseases in China - A two page, color document designed to be copied double-sided onto one page. Very general in nature, this document includes estimated costs and a simple description of the draft funding formula. (last updated March 2, 2001)

*

<http://www.api.org/benzene-consortium/Information/ConsortiumQA_FINAL.doc>
Consortium Q&A - A set of the questions most often asked, and responses to them. This particular document is targeted to the petrochemical industry. Additional versions targeted to different audience groups are under development. (last updated March 1, 2001)

*

<<http://www.api.org/benzene-consortium/Information/EthicsOnePagerFINAL.doc>>
Ethics Considerations and Status of Resolution - A brief description of the

ethical issues that have been considered in the process of developing the study protocols and the status of steps taken to resolve those issues. (last updated March 2, 2001)

Please contact me if you have any trouble accessing or using these documents.

Thank you,
