Dr. C. E. A. Winslow
310 Cedar Street
New Haven, Conn.

June
9
1932

Dear Dr. Winslow:

When your letter of June 6th reached me this morning I telephoned it to Mr. Bergquist and we join in the following reply: the report on sand blasting referred to in the program for the June 13 meeting will be officially made by President Bergquist in which Mr. Hellmuth will join as Chairman of our Reviewing Committee. The actual report from the Reviewing Committee of the Foundry Associations has not been received, but we do expect it to come in today, but our Reviewing Committee will not be in a position to study it completely and submit a formal report to our Executive Committee next Monday. It will, therefore, be unnecessary to have Dr. Greenburg at our Executive Committee meeting.

The Foundry Associations' Committee has been hard at work and we have had almost daily reports on their study and progress. This will all be explained at the meeting next Monday, at which I hope you will be present.

Sincerely yours,

W. H. Cameron
Managing Director
