EHL Report No. 15884

Date 8-11-78

TO: INTERNATIONAL HARVESTER COMPANY
Louisville Foundry
Attn: Mr. Tom White
5005 Crittenden Drive
LOUISVILLE, KY 40221The following results were obtained on samples received on 8-2-78
and identified as shown.TYPE OF SAMPLE: Blood, Urine, Air, Other Filters, bulkANALYSIS REQUESTED: Lead, Mercury, Other Asbestos (qualitative)

EHL LAB NO.	YOUR IDENTIFICATION NUMBER	NAME OR SAMPLE DESCRIPTION	RESULTS OF ANALYSIS
58335	AA #1	John Knowles called on ran bulk sample again - no actinolite -	Aug 21 - 1978 1 *
58336	AA Blank	is for all practical purposes there is no exposure to Western Bentonite	
58337	#2	asbestos	3 } analytical problems
58338	#3	Southern Bentonite E.T.A. No chrysotile detected No amosite detected No crocidolite detected No tremolite detected No anthophyllite detected - Actinolite ?	evidently relating to the difficulty in retaining enough fibers on filter to get good analysis - Had * better luck with air sample
	Material	DSJ called Knowles - Aug 18. They can't check for actinolite ?? - Dan asked him to try again - important E.T.A.
