

Industrial Buildings and Plant Layout

Chapter 16

Design for Safety	391
Buildings, equipment, and processes	Codes and standards
Planning checklist	
Site Planning	392
Location, climate, and terrain	Space requirements
Outside Facilities	393
Enclosures	Shipping and receiving
Roadways and walkways	Parking lots
disposal	Air pollution
Bins	Pits and openings
	Use of waterways
	Outside lighting
	Railroad sidings
	Landscaping
	Waste
	Trestles
	Docks and wharves
Plant Layout	398
Location of buildings and structures	Flow sheet
equipment	Electrical equipment
air conditioning	Ventilation, heating, and
	Inside storage
Lighting	403
Electric lighting	Quantity of illumination
illumination	Glare
location	Protective lighting
distribution systems	Light sources
	Safety
	Luminaires
	Maintenance
	Quality of
	Hazardous
	Electrical
Use of Color	410
Interiors and equipment	Color-coding
signs	Accident prevention
Building Structures	411
Runways and ramps	Stairs and walkways
Windows	Flooring materials
	Special flooring
	Floor loads
References	417
