

INDEX (CON'T)

<u>Maximum allowable concentration</u>		<u>Selenium</u>	
establishing	60	experimental intoxication	78
interpretation	61	<u>Silicosis</u>	115
<u>Mercury</u>		changes in blood	107
microdetermination	125	blood and bone studies	108
<u>Mercury poisoning</u>		diagnosis by use of aerosols	32
in photography	76	functional examination of	
<u>Methyl bromide</u>	88	respiration	31
<u>Methyl and ethyl acrylate</u>		in packing cleansing powder	109
toxicity of	85	<u>Silicosis and tuberculosis</u>	
<u>Microbiology</u>		chest x-ray survey	33
industrial (Bk. Rev.)	23	<u>Silver</u>	
<u>Mists</u>		excretion of	42
removal by fluidized beds	112	<u>Smoke control</u>	
<u>Nitrogen mustard</u>		electronics in	129
industrial poisoning	95	<u>Statistics</u>	
<u>Nitroglycerin</u>		industrial injuries	136
reaction of workers	92	<u>Supervisors'</u>	
<u>Nutrition</u>	135	attitudes and job performance	133
<u>Ophthalmology</u>		<u>Tetrachloroethane</u>	
problems in	41	data sheet	81
<u>Ozocerite</u>		<u>Toluene</u>	
action on nervous system	97,98	acute poisoning	82
<u>Paints</u>		<u>Toxicity</u>	
lacquers and finishes	99	classification	59
<u>Pensions</u>		results on 96 chemical	
Bethlehem Steel plan	137	compounds	62
profit-sharing plans	139	high concentration-short	
<u>Phosphorus</u>		time exposures	63
acute poisoning	77	<u>Tuberculosis</u>	
<u>Physical examinations</u>		medical and surgical	
deviations	50	treatment	34
<u>Physical medicine</u>		miniature chest	
report of Baruch Committee		roentgenograms	35
(Bk. Rev.)	24	<u>Wax crayons</u>	
<u>Plastics</u>		poisoning from	96
toxic reactions from	100	<u>Weil's disease</u>	45
<u>Pneumoconiosis</u>		<u>Uranium</u>	
reaction to carbon dioxide	116	on wound healing	75
<u>Pulmonary emphysema</u>		toxicity following inhalation	72
in coal miners	118	<u>Uranium compounds</u>	
<u>Procaine intravenous</u>	48	mechanism of action	74
<u>Pyridine</u>	83	toxicity of	73
<u>Radiant Heating (Bk. Rev.)</u>	26	<u>Vital capacity</u>	
<u>Radioactive materials</u>		in tin miners	43
protective measures	120	<u>Warning labels</u>	
<u>Recreation</u>		guide for preparation	22
administration and cost	134	<u>Welding</u>	
<u>Respiratory disorders</u>		health hazards	102
dusts	106	<u>Work relationships</u>	131
<u>Roentgen ray installations</u>			
protection requirements	121		
<u>Safety</u>
