17th January 1944.

Dear Mr. Dakin,

I am coming up to London on Wednesday, 2nd February, and I am bringing with me Captain Hopes, who is in charge of our export, and I would like him to meet you so that we might get a little further information as to what you told me regarding the compilation of detail which you are probably undertaking regarding imports of asbestos goods into Europe in the post-war period.

If you are free on the Wednesday night, I should be very glad if you would come out for dinner at the usual place, and also bring our friend, Mr. Matthews, as I have not seen him for some time.

I am also writing to Mr. Fairburn to-day asking if he will see me during the day of the 2nd February, and I may be able to come up to your office and have a word with you.

With very kindest regards,

Yours sincerely,

for THE WASHINGTON CHEMICAL CO. LTD.,

R. Rands
Director.
