Dr. Selikoff

In case you have not seen it, I attach a copy of an extract from the Montreal Gazette of the 24th February that has been sent on to me by Albion Asbestos Packings. I think, and maybe other people share the view, that ~~Dr. Selikoff is going off his head.~~ I have never read such ~~an outrageous statement.~~ We really must get onto our friends in the AIA/NA; this man Selikoff has got to be stopped somehow. What can George Wright do to help us?

D.W. Hills.

Dr. Lewinsohn:

I cannot remember whether it was Walter Smither who mentioned to me in Lyon how worried Mrs. Selikoff was about Dr. Selikoff. If he is really going round saying things like this, it seems to me he almost needs certifying. I would be interested in your views.
