Dr. William M. Johnson
Acting Deputy Director
Division of Field Studies and Clinical Investigations
National Institute for Occupational Safety and Health
550 Main Street, Federal Office Building, Room 7033
Cincinnati, Ohio 45202

Dear Dr. Johnson:

Thank you for your letter of December 10, 1971, advising us of another field of asbestos waste near the Pittsburgh Corning Corporation plant in Tyler, Texas.

I have directed my staff to investigate this problem, and to insure that the measures to cover the asbestos waste with earth, as described in my letter of November 26, 1971, be extended to this field. I will apprise you of the results of this investigation and any further action which may be necessary.

Your cooperation and assistance in this matter, as in the past, is greatly appreciated. If I may be of service at any time in the future, please feel free to contact me.

Sincerely yours

Charles R. Barden, P. E.
Executive Secretary
Texas Air Control Board

cc: Mr. Richard Leard, P. E., Regional Representative, Tyler
