

- (6) Good housekeeping is essential in a workplace where asbestos containing materials are handled. Industrial vacuum cleaners equipped with multiple stage high efficiency filters should be used for removing accumulations of asbestos dust and waste. Never use compressed air or dry sweeping for cleaning. Water or other dust suppressants should be applied if brooms are used.
- (7) Good personal hygiene practices are important in minimizing asbestos dust exposure. Do not smoke. Wash before eating. Shower after work. Change to work clothes upon arrival at work and change from work clothes at conclusion of work. Work clothing should not be taken home. Laundering asbestos contaminated clothing shall be done so as to prevent release of airborne asbestos fibers in excess of the exposure limits.

CAUTION: DO NOT BREATHE ASBESTOS

20. For each product identified in answer to Interrogatory No. 1 state whether warnings of any harmful or potentially harmful effects of the products were printed on the cartons or packing cases in which individual containers were packed and, if so:

- (a) State the printed warning's contents;
- (b) State when the warning was used;
- (c) Describe the manner in which it was placed on or in the product container;
- (d) Identify each individual who participated in writing of the label or brochure and describe in detail the extent of his participation;
- (e) Identify each document which reflects, refers or relates to the information contained on the cartons or packing cases and the decision to include that information;
- (f) As to any information received orally in answer to this interrogatory, identify each person who supplied such information and state the full substance for the information supplied.

ANSWER TO INTERROGATORY NO. 20: See answer to interrogatory No. 19.

21. For each label, brochure, or other written material describing or relating to each process or method identified in answer to Interrogatory No. 9(b) produced by you or
