Subject: Re: Connecting you

The timing works:

Draft agenda:

830 arrive and intro to CAER
850 tour of carbon capture pilot
910 tour of algae scrubbing plant
930 tour of coal byproducts area
950 follow-up discussion on CAER and role of research in solving issues
1030 return to Ft.

The discussion can be shortened if interested in another topic (like gasification and clean fuels).

I can do a call this afternoon as needed

Cheers,
Rodney

We need to be back at the convention center at 11:30 AM that day Will that be enough time if we start at
8:30? Do you all want to kick around a draft schedule and we can follow up with a conference call,
preferably today?
