## PART I

### The General Principles of Maintaining Health in Industry

|                                                                                                                                                  | Page    |
|--------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| CHAPTER I. THE CAUSE AND PREVENTION OF OCCUPATIONAL DISEASES (Kober) . . . . .                                                                   | 1       |
| CHAPTER II. SUGGESTED STANDARDS FOR VENTILATION, SANITATION AND ILLUMINATION . . . . .                                                           | 25      |
| SECTION 1. Ventilation in Work Places, and Tests Therefor (Hayhurst) . . . . .                                                                   | 28      |
| SECTION 2. Sanitation for Places of Employment (Dittie and Groeniger) . . . . .                                                                  | 31      |
| SECTION 3. Illumination in Work Places, and Tests Therefor (Hayhurst) . . . . .                                                                  | 33      |
| CHAPTER III. PERSONAL HYGIENE OF THE WORKER (Kober) . . . . .                                                                                    | 42      |
| THE VITAMINES, A SUMMARY (Hayhurst) . . . . .                                                                                                    | 57-61   |
| CHAPTER IV. ECONOMIC LOSS FROM PREVENTABLE SICKNESS AND ACCIDENTS AMONG THE WORKING POPULATION (Kober) . . . . .                                 | 74      |
| CHAPTER V. GENERAL WELFARE MEASURES FOR WAGE-EARNERS (Kober) . . . . .                                                                           | 87      |
| CHAPTER VI. FEDERAL, STATE AND LOCAL HEALTH AGENCIES IN PROMOTING INDUSTRIAL HYGIENE (Schereschewsky) . . . . .                                  | 95      |
| CHAPTER VII. THE FUNCTION OF THE MILAN CLINIC IN THE PREVENTION OF OCCUPATIONAL DISEASES: ITS ORIGIN, PURPOSES AND ACTIVITIES (Devoto) . . . . . | 101     |
| OCCUPATIONAL DISEASE CLINICS IN THE UNITED STATES (Kober) . . . . .                                                                              | 112-113 |
| CHAPTER VIII. INDUSTRIAL MEDICAL SERVICE (Selby) . . . . .                                                                                       | 114     |
| CHAPTER IX. THE INDUSTRIAL NURSE (Wright) . . . . .                                                                                              | 136     |

## PART II

### Vocational Hygiene of Certain Industries and Callings

|                                                                                  |         |
|----------------------------------------------------------------------------------|---------|
| CHAPTER I. MINING AND QUARRYING INDUSTRIES (Kober) . . . . .                     | 145     |
| AIR OF MINES (Sayers) . . . . .                                                  | 146-149 |
| SPECIAL HAZARDS, DISEASES AND MORTALITY OF COAL MINERS (Hayhurst) . . . . .      | 150-153 |
| CHAPTER II. CLAY PRODUCTS POTTERY, GLASS AND ALLIED INDUSTRIES (Kober) . . . . . | 163     |
| CHAPTER III. IRON, STEEL AND ALLIED INDUSTRIES (Kober) . . . . .                 | 176     |
| AUTOMOBILES, MOTORCYCLES, ETC. (Hayhurst) . . . . .                              | 193-194 |
| CHAPTER IV. PRECIOUS METALS, JEWELRY AND PLATING INDUSTRIES (Kober) . . . . .    | 198     |
| CHAPTER V. THE LUMBER INDUSTRY (Kober) . . . . .                                 | 202     |
| CHAPTER VI. FARMERS, GARDENERS, PLANTERS AND FARM LABORERS (Kober) . . . . .     | 210     |
| CHAPTER VII. THE INDUSTRY OF FOOD STUFFS, ETC. (Kober) . . . . .                 | 214     |

| CHAPTER XI. THE TEXTILE AND ALLIED INDUSTRIES (Kober and Hanson)               | 257         |
| CHAPTER XII. THE RAG, SHODDY AND PAPER INDUSTRIES (Kober)                      | 269         |
| CHAPTER XIII. THE BUTTON, HORN, CELLULOID AND ALLIED INDUSTRIES<br>(Kober)     | 273         |
| CHAPTER XIV. THE BOOT AND SHOE INDUSTRY (Kober)                                | 275         |
| CHAPTER XV. TAILORS, GARMENT AND LAUNDRY WORKERS (Kober)                       | 281         |
| CHAPTER XVI. LIBERAL PROFESSIONS, PUBLIC SERVICES, ETC. (Kober)                | 283         |

### PART III

#### Specific Occupational Diseases with Hygienic Description of the Industries in Which They Chiefly Occur

|                                                                                                                                                      |     |
|------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| CHAPTER I. OCCUPATIONAL INTOXICATIONS.                                                                                                               | 303 |
| SECTION 1. Arsenic Poisoning (Lege)                                                                                                                  | 303 |
| SECTION 2. Peculiarities in Arsenic Poisoning (Kober)                                                                                                | 315 |
| SECTION 3. Copper and the Copper Industries (Hayhurst)                                                                                               | 321 |
| SECTION 4. Zinc and the Zinc Industries (Hayhurst)                                                                                                   | 325 |
| SECTION 5. Brass and the Brass Industries (Hayhurst and Kober)                                                                                       | 331 |
| SECTION 6. The Health of Brass Workers (Lege)                                                                                                        | 333 |
| SECTION 7. Carbon Disulphide Poisoning (Hayhurst)                                                                                                    | 360 |
| SECTION 8. Carbon Monoxide Poisoning (Apfelbach, revised by Hayhurst)                                                                                | 369 |
| SECTION 9. Lead Poisoning: Sources, Symptoms and Treatment (Oliver)                                                                                  | 412 |
| SECTION 10. Early Diagnosis of Lead Poisoning (Linenthal)                                                                                            | 433 |
| SECTION 11. Lead Poisoning in the United States (Hamilton)                                                                                           | 440 |
| SECTION 12. Lead Poisoning: Notes, Statistics and Preventive Measures<br>(Kober)                                                                     | 458 |
| SECTION 13. Mercury Poisoning (Teleky)                                                                                                               | 471 |
| SECTION 14. Mercurial Industries (Teleky and Kober)                                                                                                  | 481 |
| SECTION 15. Petroleum and Its Derivatives (Hamilton)                                                                                                 | 495 |
| SECTION 16. Coal Tar Benzene (Benzol) Poisoning (Hamilton)                                                                                           | 500 |
| SECTION 17. The Petroleum and Coal Tar Industries (Kober)                                                                                            | 504 |
| SECTION 18. Phosphorus Poisoning: History, Statistics and Prevention<br>(J. B. Andrews)                                                              | 526 |
| SECTION 19. Phosphorus Poisoning: Sources, Symptoms and Treatment<br>(Hamilton)                                                                      | 531 |
| SECTION 20. Poisonings in the Rubber Industry (Hayhurst and Kober)                                                                                   | 535 |
| SECTION 21. The Manufacture and Use of Explosives (Kober)                                                                                            | 546 |
| SECTION 22. Miscellaneous Chemical Poisons and the Relevant Industries<br>(Kober)                                                                    | 569 |
| SECTION 23. Miscellaneous Metals and the Relevant Industries (Kober)                                                                                 | 583 |
| SECTION 24. Alphabetical List of Industries in Which Poisoning May<br>Occur and Other Hazards Which May be Present (Kober)                           | 606 |
| SECTION 25. List of Mixed Industrial Poisons: Composite Industrial<br>Poisons (Rand, from Mueller)                                                   | 627 |
| SECTION 26. List of Industrial Poisons and Other Substances Injurious to<br>Health Found in Industrial Processes (Rand, from Sommerfeld and Fischer) | 642 |

| CONTENTS                                                                  |  | ix   |
|---------------------------------------------------------------------------|--|------|
|                                                                           |  | Page |
| CHAPTER II. OCCUPATIONAL INFECTIOUS DISEASES                              |  | 663  |
| SECTION 1. Anthrax (Frothingham)                                          |  | 663  |
| SECTION 2. The Hides, Tanning and Allied Industries (Kober)               |  | 673  |
| SECTION 3. Parasites and Occupation (Ashford)                             |  | 682  |
| SECTION 4. Oil Folliculitis, Dermatitis and Furunculosis (Hayhurst)       |  | 696  |
| CHAPTER III. OCCUPATIONAL DISEASES DUE TO DUST.—TUBERCULOSIS              |  | 701  |
| SECTION 1. Dust Diseases of the Lungs (Oliver)                            |  | 701  |
| SECTION 2. Tuberculosis in Relation to Occupations (Kober)                |  | 720  |
| CHAPTER IV. OCCUPATIONAL DISEASES DUE TO FATIGUE                          |  | 737  |
| SECTION 1. Fatigue and Occupation (F. S. Lee)                             |  | 737  |
| SECTION 2. Occupation Neuroses (Southard and Solomon)                     |  | 763  |
| CHAPTER V. OCCUPATIONAL DISEASES DUE TO ABNORMAL ATMOSPHERIC PRESSURES    |  | 790  |
