Hi [REDACTED]

We are well, except for the snow currently falling!

Our current understanding is that the evaluations and RMOA will be published in the spring, but I can't be more specific than that.

Kind regards
[REDACTED]

Subject: Publication of AGCCE substance evaluation dossiers and study update

Hi [REDACTED]

I hope that you and your family are well.

Just wondered if you had any news about publication dates for the 4 evaluation dossiers on the AGCCE substances?

I also wanted to inform you that the lab we are using for the marine studies has had further technical issues relating to the study (on the oyster embryos) – again, these are procedural/control issues and not specific to the substance being tested. We remain engaged with the lab and are pushing them to get the study completed.

With best wishes,
[REDACTED]
