CONFIDENTIAL

29th March 1966.

Asbestosis and Mesothelioma

Thank you for your letter of the 24th March. I am very pleased that you invited Dr. Harries to Rochdale as clearly this was a very successful and worthwhile visit.

I think for the record I should mention we agreed that in view of Dr. Harries' visit and also that it will be approximately two years before his report is issued, there is no point at this stage in arranging to see Surgeon Captain James.

D.W. Hills.
