RE: Review of "Federally Permitted Release" Issue

The attached memo from Jeffrey Lang of Keller & Heckman discusses the present scope of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) federally permitted release exemption as it relates to reporting of releases of vinyl chloride.

If you have any comments on the memo, please direct them to me or to Jeff (202/956-5720) at your earliest convenience.

Thanks for your review.

Meredith N. Scheck
Assistant Director
