INDUSTRIAL HYGIENE DIGEST

1943

Absenteeism		Air analysis (cont'd)	
401-402-403-499-537-538-539		sampling	604
805-806-807-808-809-960		smoke and dust	73
and mortality		solvent vapors	468
Portland Cement industry	307	tetryl	598
and psychiatry	796		
auditing	60	Air-borne infection	576
control	536	Air emboli	893
dental aspects	209		
fatigue and malnutrition	224	Air flow	
Great Britain	123	characteristics	
illness	225-898	round openings	73
non-industrial accidents	124	narrow exhaust slots	79
shipyards	306		
sickness	1087	Air pollution	
war production	305	respiratory infection	592
women	210-211-1088		
		Air raid shelters	
Acrylonitrile		heat and ventilation	716
toxicity inhalation	35		
		Air pressure	
Aerosol O-T		effect on hearing	701
chronic toxicity	553		
		Allergy	
Air analysis		chemical	563
bacteria	76		
benzene and toluene	706	Aluminum dust	
cadmium	844	pulmonary irritation	
carbon monoxide	777	269-270-271-272	
dust counting	912		
formaldehyde	913	Aluminum powder	
fumigants	467	safe handling	1031
halogenated hydrocarbons	599		
hydrogen sulfide	844	Ammonia poisoning	441
lead fumes	601		
mercury vapor	1024	Ammoniacal silver solutions	
mustard gas	914	explosive hazard	1010
organic halide gas	708		
oxides of nitrogen	602-780-1139		
phosphine	781		

004242

Analysis		Atmospheric pollution	
aliphatic nitrates	465	in Dublin	702
arsenic	600	stack height	189
in biological material	704		
cellosolve	915	Aviation	
glucuronates	916	effect on hearing	71
hydrocarbons in blood	779	medicine	612
lead by polarograph	481	occupational hazards	243
lead in bones	289	physiology	953
lead in urine	183-918	use of oxygen	611
lead-dithizone	290		
methods	1138	Bagassosis	248
silica by x-ray	74		
tellurium	378	B Anthracis	
toluene	707	in bone meal	416
trinitrotoluene	486		
vanadium	292	Benzene (Benzol)	
zinc	291	and resistance to infection	850-851
		determination	705-707
Anemia		fatality	1014
floor wax and flyspray	1099	leucotoxic action	34
toxic	475	nerve action of	1013
		poisoning	255-683-1121-1123-1124
Aniline			
acute intoxication	257	Benzine poisoning	1116
Anthracosis-silicosis		Benzopyrene	
bituminous miners	136	effect on skin	695
Anthrax	662	Benzoyl-N-Ethylpiperidine	
a warning	848	toxicity	858
case review	283		
		Beryllium	1108
Arsenic		respiratory hazards	666
agricultural workers	1006	toxicity	413
compounds			
toxicity	155	Black dermographism	461
poisoning			
liver cirrhosis	417	Book reviews and notices	
toxicology	865	12-13-14-15-16-343-408-526-527-528	
		529-530-531-532-660-661-748-749-750-	
Artificial respiration	69	751-834-835-836-837-1069-1070-1071-	
Eve's method	938	1072-1073-1074-1075-1076	
Asbestos		Brick manufacturing	
electron microscopy	480	health hazards	665
industry			
wartime problems	717	Bromobenzene (mono)	
		and vitamin A	962
Ascorbic acid			
and lead absorption	428	Bronchitis	
		from wood dust	642
Asthma			
from gum acacia	770		

Index - 3

Burns	613-726	Carbon monoxide (cont'd)	
alkali	1043	home hazards	678
chemical	1156	measurement	1137
Cocoonut Grove reports	1040	optic effects	442
industrial		poisoning	679-1104
treatment	205	in iron working	359
magnesium	736	metabolism	680
occupational therapy	921	treatment oxygen	200
pathology of	950	x-ray therapy	314
phosphorus	729-730		
treatment	107-937	Carbon tetrachloride	1119
protection against shock	1151	allowable concentrations	760
treatment 106-727-728-873-927-928-		health hazards	451
929-931-932-933-935-1033-1041-		nephritis	535
1042-1044		prevention of liver damage	542
experimental	934	toxicity	146-356
molten magnesium	104		
sulfathiazole	204	Carcinogenic activity	
tannic acid	47	survey of compounds	467
Butadiene		Cataract	
explosive mixtures	782	industrial	985
Byssinosis		Cellosolve compounds	1117
case review	752		
		China painting	
		hazards	955
Cadmium			
dithizone determination	377	Chlorinated hydrocarbons	1131
poisoning	544-1109		
toxicology	43	Chlorinated naphthalene	
		poisoning	554-555-685
Cancer			
and toxic gases	537	Chlorophenols	
etiology	969	toxicity	857
from hydrocarbons	372		
from metals	970	Chromates	
from o-amino-azotoluene	370	safe limits	550
from tars	368-369		
lung	371	Chromium	
radiation	159	poisoning	
therapy	315	from electric welding	359
Carbon arc gases	1079	Citric acid	
		occupational exposure	165
Carbon disulfide	540		
Great Britain	853	Cobalt	
in blood	911	physiological effects from	1001
poisoning	450-632		
		Colds	804
Carbon monoxide	33	vitamin therapy	121
anoxemia	443		
camp stoves	444	Color blindness	
combustion gases	386	industrial significance	223-286
compressed air	55		
encephalitis		Communal feeding	813
treatment of	509		

004244

Index - 4

Compensation laws	1091	Dermatitis (cont'd)	
Indiana	1157	treatment	205
Conjunctivitis		varnish factory	569
in welders	956	vitamin C	51
Cotton		war industries	167-163
infection from	72	Dichlorodiethyl sulfide	693
Cyclohexane	1118	Diethyl mercury	
and derivatives		poisoning	866
physiological effect	759	Dinitrobenzene (Meta)	
Cyclotron workers		methemoglobin	1015
blood findings	473	toxicity	1016
Daylight work		Dinitrotoluene	
advantages	66	toxicology	148
Dermatitis		Disease	
52-170-274-277-457-692-696-975-1098		and weather	512
airplane industry	455-381	functional	501
allergic	977	industrial	
A.M.A. report	882	and insurance carrier	820
and adhesive tape	769	Disinfection	93
and syphilis	316	aerosols	579-581
Bhilawanol oil	974	air	1144
canners	1093	by hot air	715
case reviews	688	droplet and mist	498
chloro-waxes	275-366-971	glycol vapors	298
coal tar or pine tar	972	hypochlorites	578
compensation	883	mists and smokes	197
cutting oils	48-276-367-456-694	ozone and radiation	493
diagnosis and treatment	565	propylene glycol	577
fabric chemicals	566	radiation	195
fats and oils	49-973	triethylene glycol vapor	281
flour and grain	172	ultraviolet light	580-1143
from resins	689-884-1134	use of ozone	196
from underclothing	979	vacuum and germicides	497
inorganic selenium	973	Drinking water	766
in shipyard workers	365	industrial	767
lime dust	279	Drum cleaning	
metol	171	safe practice	193
petroleum	1095	Duct systems	
pre-employment examination	53	side outlets	138
prevention	54-495-564-697-699-1096	Dural poisoning	691
and treatment	768	Dust	
rubber mask	453	atmospheric	
"Scrub"	885	determination	711
statistics, 1942	273	ceramic industry	552
synthetic rubber	1082		
tanneries	169		
testing	1097		

004245

Dust (cont'd)					
control	41-190	Exhaust gases			
coal mines		motor			
81-82-83-84-293-714-919-1145		effects of		997	
disposal of dust	191	Exhaust hoods			
exhaust hood design	491	design		1034	
foundries	841	Explosion hazards			
fur hat industry	44	control		91	
grinding	667	Explosives			
new type filters	295	industry			
reasons for	87	hazard control		950	
water sprays	1035	health protection		951	
wetting agents	294	safe handling		67	
cotton	1083	toxicity		763	
counting	75	Eye diseases			
a new instrument	1026	chemical		852	
efficiency	606	infections		465	
in gases	603	nitrobenzene		361	
konimeter	605	Eye injuries	571-572-573-1159		
measurements		industrial		876-1089	
correlations	185	Eye protection		199	
Ear disability		Fatigue	622-774-993-994		
prevention	575	factors in		895	
Elderly persons		in industry		394	
employment	396	mental			
Electrical hazards	284	in industry		400	
Electrostatic precipitator	1142	mining		478	
portable	484	physiology		995	
Engines		psychological factors		996	
diesel	1078	Ferrous alloys			
safe use in tunnels	86	industrial hygiene		438	
underground	31	Fertilizer workers			
Epilepsy		a new health hazard		954	
employment	303	Fiberglas			
Ether		health aspects		419-891	
effects on anesthetist	1161	skin effects		143	
Ethylene glycol		Fire			
toxicology	860	hazards			
Ethylene glycol diacetate		1942 record		778	
toxicology	860	mining		1084	
Examinations		smoke and gases		151	
physical	100-101-502	prevention		46	
observations	1149	First Aid		310	
pre-placement	621-788				
pre-employment	390-394				

Fluorescent light and asthma	983	Health fixed pace work effects	500
Fluorides absorption and excretion	439	hazards	
poisoning	357	occupational	
flue gases	260-261	classification	13
Formaldehyde	880	industrial	
Foundries		and the war	507
non-ferrous		and government	318
fume concentrations	249	control	627
safe practices	94	education	394-803
Fur industry		labor's attitude	397
health hazards	166	organization	724
Furunculosis		problems	940
in miners		requirements	
treatment	201	U.S. Navy contracts	595
Gallium		solaria	122
toxicity	158	war and postwar	718
Gas masks	920	war plants	633
arsine	1029	war problems	206
classification	194	workers	801
collective filters	1030	Health and safety	959
testing procedures	1028	Hearing defects	1160
Gas poisoning		Heart disease	
treatment	32	industrial	108-176
Gasoline		placement in industry	924
toxicity	758	Heat	
Glass painting		and moisture	479
hazards	955	cramps	
Glass wool		first aid	811
health aspects	419-892	effective temperature	229
skin hazards	143-567	effect on workers	771
Glycols		elimination from body	871
toxicity	452-1012	prostration	
Handicapped workers		and vitamin C	388
employment	102-300-399-625-686	sickness	800
in government employ	301	tolerance	
utilization of	1057	improvement in	286
Hay fever		tropical	477
