Subject: Tax reform is heating up

Kenneth,

In the last week we've made huge strides forward on tax reform. The house just released their tax plan today, and the senate is hoping to have their version approved by Thanksgiving. Congress could turn tax cuts into law by Christmas. A better tax code is so close.

But just because tax reform is close doesn't mean it'll be easy. The fight is heating up, and we need to fight harder than ever.

You've seen the stubbornness of the Establishment in the last several months. They strike down limited government proposals with ridiculous excuses: that it's too much work, that we can't get the votes, that it can't be done. **Establishment politicians settle for bad deals that threaten to drown Americans in debt—because they're afraid of real change.**

But these are the changes that will make America stronger. You know that, and so do we.

Together, Heritage and Heritage Action are launching a fierce tax reform initiative so that Americans can keep more of their hard-earned dollars. **Will you join us in the fight?**

When you donate to Heritage, you make change happen and you advance policy solutions based on our founding principles of free enterprise, limited government, individual freedom, traditional American values, and strong national defense. You can make the difference now.

Join the push for conservative tax reform by using this secure link: **secured.heritage.org/take-back-tax-reform**

Thank you for all you do to fight for conservative principles.

Onward!

Ed Feulner
