Correspondence

P. O. BOX 1000

LAKE CHARLES, LOUISIANA

Date September 28, 1966 Subject Consultation with Dr. Bell
To Mr. Franklin Strain
From A. T. Raetzsch Reference Your memo of September 23, 1966

Handwritten:
Done
Peck
Walker

Thanks very much for calling our attention to the availability of Dr. Bell for consultation on certain industrial hygiene problems in our plant.

Al McRae, our Safety and Training Director, has already written Dr. Bell requesting information on both mercury and silica problems, but if Dr. Bell could come down for consultation, I think it would be even better. Just ask him to contact McRae and work out a mutually agreeable time.
