Dr. Jack D. Early
Monsanto Company
1101 17th St. N.W.
Washington, D. C. 20036

Dear Dr. Early:

Mrs. Metz is a very nice little lady who runs a clipping service and feels that it is her duty to protect the world, its children and animals, from perils such as PCB's. She mails all types of articles to all types of people and publications and her dedication is backed by an invitation to submit a small fee for her services.

I had some similar problems with Midnight, published by the Globe Newspaper group back in 1971. At that time the publisher was Miss Joan LeBlanc, 1440 St. Catherine St. W., Suite 625, Montreal, Canada. Apparently, the magazine is a sensation-type tabloid appearing in many cities in Ohio, Michigan and New York. As I recall, ~~they~~ had a very difficult time getting a feature writer named Ray Metcalf to make a retraction on a story he had written on lead in paints.

I am sending the article to Jerry Colness, Director of our Public Relations Division and have asked him to advise you of any action taken with Midnight to correct this article.

Kindest regards.

Stella
