## COMMITTEE ON AIR POLLUTION CONTROLS

1961-1962

### EXECUTIVE COMMITTEE

#### Chairman

A. C. Stern (1962)  
Robert A. Taft Sanitary Engineering  
Center  
1676 Columbia Parkway  
Cincinnati 26, Ohio

#### Vice-Chairman

E. H. Man (1963)  
Consolidated Edison Co.  
4 Irving Place  
New York 3, N. Y.

#### Secretary

J. R. Chapman (1964)  
Stone and Webster Engrg. Corp.  
19 Federal Street  
Boston, Mass.

E. F. Wolf (1965)  
Baltimore Gas & Electric Co.  
531 E. Madison Street  
Baltimore 3, Md.

F. J. Leonhard (1966)  
Cleveland Electric Illuminating Co.  
P. O. Box 5000  
Cleveland 1, Ohio

#### Meetings and Programs

H. C. Ballman, Chairman  
National Coal Association  
1625 Eye St., N. W.  
Washington 6, D. C.

#### Reports and Digests

A. H. Rose, Jr., Chairman  
Robert A. Taft Sanitary Engineering  
Center  
1676 Columbia Parkway  
Cincinnati 26, Ohio

#### Research

J. D. Sensenbaugh  
Combustion Engineering, Inc.  
Windsor, Conn.

#### Clean Air Ordinance

F. J. Leonhard —  
Cleveland Electric Illuminating Co.  
P. O. Box 5000  
Cleveland 1, Ohio

#### Study News

E. R. Kaiser  
Research Bldg. No. 1  
New York University  
New York 53, N. Y.

Prof. Robert A. Kehoe  
Kettering Laboratory  
Dept. Prev. Med. & Ind. Hlth.  
College of Medicine  
University of Cincinnati  
Cincinnati 19, Ohio

Dear Prof. Kehoe:

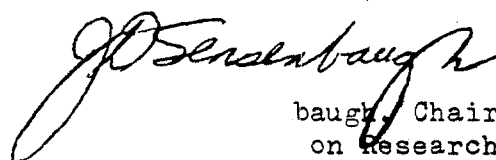

This Committee has periodically published a "Guide to Research in Air Pollution," which is a statistical compilation of data on air pollution research projects. The Fourth Edition was issued in 1961, and plans are under way to publish the Fifth Edition this year, covering projects active during the calendar year 1962.

To compile the data for this report, questionnaires are being sent to individuals and organizations who may be conducting research in the field of air pollution. We would appreciate it if you would fill out the questionnaire and return it in the enclosed self-addressed stamped envelope. It will help us if you return your questionnaire even if you have no air pollution research projects active during 1962. If you are uncertain regarding your program for the balance of the year, a reasonable estimate will be satisfactory.

For our publication to be of maximum value to users, it must reflect the current status of air pollution research insofar as possible. In addition, we hope to have the report available for distribution at the National Conference on Air Pollution in December. For these reasons, we must set a deadline of August 10th for return of the questionnaires.

We will appreciate your prompt reply. In return for your cooperation, we will send a complimentary copy of the completed publication to those reporting their research projects.

Yours very truly,

baugh, Chairman  
on Research
