BABY PRODUCTS COMPANY

RARITAN, N.J. 08869

February 7, 1977

TO: Dr. W. C. Waggoner

Attached is a document for your talc files regarding the presence of nickel, chromium, and cobalt in the talc crystal structure of Lot 228P.

Although I have sent you this information in the past in separate notes, I decided it advisable to have it all in one letter in summary form.
