

August 11, 1932

Mr. J. H. Schaefer
Ethyl Gasoline Corporation
Pennsgrove, N. J.

Dear Mr. Schaefer:

We have a copy of your letter to Mr. A. E. Mittnacht reporting on the case of an accident to two children in Pennsgrove as a result of contact with Ethyl Fluid.

It was a very good idea to have Dr. Deuel take care of these children in the event that any symptoms of intoxication developed. In all probability, I will see Dr. Deuel a little later this month when I visit Wilmington and will be able to get the medical history from him.

We would appreciate being advised of any further developments in this case.

Yours very truly,

WM:IS
