

1 Isn't it also true that in the Teta study --

2 A Teta.

3 Q Teta, thank you -- the proportions or the
4 proportion, excuse me, of mesotheliomas not associated
5 with some form of asbestos exposure was about 15
6 percent?

7 A I don't remember that number in that paper.

8 Q Because you --

9 A The purpose of my paper -- the purpose of
10 relying on that paper is really on garage mechanics,
11 not on asbestos in general.

12 Q The reason I asked, Doctor, is you put up a
13 board of the percentage of mesothelioma cases not
14 related to asbestos, and you have several studies on
15 here.

16 Do you recall?

17 A Yes.

18 Q The Teta study is not one of them?

19 A It is not.

20 Q Now, isn't there an article by Rushton on
21 London bus garage mechanics?
