Dear Jimmie:

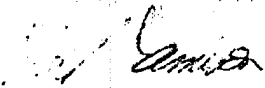

Recently we've had discussions concerning participation in DuPont's TiO_2 slurry traffic from your North Jersey Terminal.

In my letter to you of December 17, 1982, we quoted a cleaning and waste charge of \$107.00. We have determined that the charge can be reduced to \$82.00 when cleaning is required of a trailer in TiO_2 service. Also, the rates quoted December 17th are presently in effect as they were quoted from our mileage table Item 1000 VNGD 200 Tariff.

We are looking forward to being of service to DuPont on this traffic.

Very truly yours,

VANGUARD TRANSPORTATION INC.
