#### **Commercial and Industrial Solid Waste Incinerator Mercury Emission Limit** **Alabama AIR**

Proposed rule of the Department of Environmental Management, Air Division, amends regulations under AAC 335-3-3-.05 regarding the incineration of commercial and industrial solid waste. The rule allows commercial and industrial solid waste units in the waste-burning kiln subcategory to comply with an equivalent production-based mercury emission limit of 58 pounds of mercury per million tons of clinker produced instead of the concentration-based emission limit. The rule also includes additional monitoring and recordkeeping requirements applicable to waste-burning kilns that choose to comply with the equivalent production-based mercury emission limit. A hearing is scheduled for Sept. 6, 2017, in Montgomery. Comments are due Sept. 8, 2017. Contact: Larry Brown; DEM; 334-271-7878

#### ***GENERAL ENVIRONMENT AND SAFETY***

#### **Department of Environmental Management/Ethics and Conflicts of Interest** **Alabama GENERAL ENVIRONMENT AND SAFETY**

Proposed rule of the Department of Environmental Management amends regulations under AAC 335-1-1-.03 regarding the department's organization and duties of department subdivisions and personnel. The rule includes requirements that department personnel meet state ethics requirements and federal requirements involving disclosure of potential conflicts of interest. The rule will be submitted to the EPA as a revision to the state implementation plan. A hearing is scheduled for Sept. 6, 2017, in Montgomery. Comments are due Sept. 8, 2017. Contact: Ronald Gore; DEM; 334-271-7868

**HAZARDOUS WASTE MANAGEMENT**

Underground Storage Tanks/UST System Construction Plans and Specifications

**Alabama HAZARDOUS WASTE MANAGEMENT**

Proposed rule of the Department of Environmental Management amends regulations under AAC 335-6-15-.08 regarding technical standards, correction action requirements, and financial responsibility for owners and operators of underground storage tanks (USTs). The rule revises requirements for plans and specifications for the construction of UST systems to align with federal standards and to incorporate revisions required by the EPA to maintain authorization of the Underground Storage Tanks Program. A hearing is scheduled for Aug. 9, 2017, in Montgomery. Comments are due Sept. 6, 2017. Contact: Sonja Massey; DEM, Land Division; 334-271-7832

#### New Source Review of Toxic Air Contaminants

#### **California Regions AIR**

Notice of the South Coast Air Quality Management District announces revisions to and an extension of the comment period for a proposed rule to amend regulations under Rule 1401 regarding new source review of toxic air contaminants. The rule requires spray booths and gasoline dispensing facilities to begin using Version 8.1 of the district's risk assessment procedures. The rule also updates the list of toxic air contaminants by adding caprolactum (CAS No. 105-60-2) and carbonyl sulfide (CAS No. 463-58-1); adding health risk values for butadiene, 1,3- (CAS No. 106-99-0) and toluene diisocyanates (CAS Nos. 26471-62-5, 584-84-9, and 91-08-7); and clarifying applicability of requirements to certain compounds and their parent compounds. The revisions make technical corrections to the list of toxic air contaminants. A hearing is scheduled for Sept. 1, 2017, in Diamond Bar. Comments now are due Aug. 22, 2017. Progress Plan for Sacramento Federal Nonattainment Area

**California Regions AIR**

Notice of the El Dorado County Air Quality Management District announces a hearing on the adoption of the proposed Sacramento regional 2008 NAAQS eight-hour ozone attainment and reasonable further progress plan. The plan demonstrates reasonable further progress and attainment of the 2008 NAAQS of 75 parts per billion. The plan also includes an updated emissions inventory, analyzes air quality trends, evaluates photochemical modeling results, and establishes new motor vehicle emission budgets for transportation conformity purposes. Additionally, the plan documents the region's reasonably available control measure analysis and vehicle miles traveled offset demonstration. The plan will be submitted to the EPA as a revision to the California SIP after approval by the California Air Resources Board. The hearing is scheduled for Sept. 12, 2017, in Placerville. Comments are requested, but a due date is not specified. Contact: Adam Baughman; El Dorado County AQMD; 530-621-7501; aqmd@edcgov.us

Idaho Pollutant Discharge Elimination System Program

Idaho WATER

Proposed rule of the Department of Environmental Quality amends regulations under IDAPA 58.01.25 regarding the Idaho Pollutant Discharge Elimination System Program. The rule incorporates by reference federal standards as of July 1, 2017, and updates electronic reporting requirements to align with federal standards under 40 CFR 127. The updated federal regulations allow the state to select an approach for permitting these small municipal discharges and establish the method for permittees to meet the maximum extent practicable standards established by the Clean Water Act. The updated federal regulations also addresses effluent limitations for steam electric generating point sources, oil and gas point sources, and approved test methods for analysis of parameters in effluent discharges. Finally, the rule removes references to the vessel general permit and adds a definition for sludge. Hearing requests are due Aug. 18, 2017. Comments are due Sept. 1, 2017.
