

C O P Y

File 15-1-JFJ

April 26, 1935

Mr. Joseph Schneider
2237 Dwight Way
Berkeley, Calif.

Dear Mr. Schneider:

Thank you for your interesting letter of April 23, concerning possible poisonous effects of Ethyl Gasoline fumes upon the motorist and general public. Your inquiry deserves a careful and convincing reply and we will obtain one for you.

In the meantime please accept our thanks for your interest, and why not try out the product pending what I hope will be a thoroughly acceptable proof that there is nothing to fear from the lead fumes.

Very truly yours,

W. A. REANIER
Manager White Oil Sales
