Dear Warren:

Confirming my telephone conversations with you today and Johns-Manville's Jim Reese yesterday concerning the unwanted car of JM-02 asbestos received at our Milford plant, we have agreed to do the following: -

1. We will unload car DWC-581569 at Milford but for accounting purposes it will not be counted as part of our inventory.

2. The collect inbound freight bill and your invoice #1675 of 1/13/76 are to be sent to you from our Milford plant; Cordano will pay the freight charges advising the railroad what this payment covers so the railroad will remove this charge from our account.

3. On April 1 you will re-invoice Milford referring to our purchase order G-10446 (enclosed) for the value of the asbestos plus the inbound freight charges.

4. In the event we are legislated out of the usage of asbestos in our joint compound formulas before we have completely used this carload, Johns-Manville will take any balance remaining off our hands for full credit.

I believe this is the best we can do with a bad situation, and it is certainly a better alternative than to have Cordano Chemical or Johns-Manville incur heavy freight charges in moving this car to our Akron or Chicago plants.

Yours very truly,

Edward L. Aasen
