Tate,

Sorry we didn't get a chance to connect yesterday. I'll be on Capitol Hill for a FDA reform briefing Heartland is hosting until we return to CPAC at 3 p.m. for our Energy Breakout Session at CPAC. I'll have my phone on me if you'd like to chat. Or we can text: Ex. 6

Best,

I see today that Administrator Pruitt is scheduled to speak at CPAC again this year. That's great! Is there any chance he can also stop by our official CPAC Breakout Session on Energy Policy to be the "keynote" for our second hour on Friday from 5 p.m. to 6 p.m.?

Great. Thanks for the introduction, John. And nice to meet you, Tate. If Administrator Pruitt is available to be the keynote of our CPAC breakout session, we'd be thrilled. Heartland is also very grateful Administrator Pruitt's recorded address for our America First Energy Conference (AFEC) in Houston last November.

BTW: We're having our second one of those, AFEC 2018, in New Orleans on August 7. If his schedule allows, he could have any of the breakfast, lunch, or dinner keynote slots he would like. As you know, Heartland and our scholars/supporters/audience are great admirers of what Administrator Pruitt has been able to accomplish in just one year, and look forward to more victories to come.

Jim: Let me introduce you to Tate Bennett (copied). Tate helps organize most of the Administrator's events.

John,

Thanks, again, for making sure Heartland's Isaac Orr gets to contribute to the KC event for EPA. I have another request.

Heartland is hosting a two-hour breakout session at CPAC on energy policy. We want the second hour to feature a "keynote" speaker. Is there someone at EPA who could talk energy policy for about 30-40 minutes and take some questions from the audience?

The purpose of this breakout session, like our energy conference in Houston last November, is to promote President Trump's America First Energy Plan. So it's a great opportunity to communicate directly to the grassroots about its importance and why they should get behind it.

John,

I hope you are doing well. Keep up the great work!

I'm just dropping you a line to let you know that Heartland Research Fellow for Energy Policy Isaac Orr is going to be at the Kansas City Listening Session on February 21. Can you help us get him on the schedule for offering comments? If that can happen, what's the ideal length of such a comment?

Best,
