Ford Tractor Operations

June 4, 1980

Mr. R. M. Dierkes

cc G. J. Denhof
J. H. Douma
R. J. Ford
T. Gaul
K. B. Termaat

Subject: Production Materials and Components Containing Asbestos

Reference: Your letter dated May 8, 1980.

Since your letter on this subject did not indicate any Ford Tractor parts in the attachment, we discussed the matter with both K. B. Termaat and FTO Engineering. There are, in fact, several parts in the FTO system which contain asbestos. They were apparently omitted in error.

Mr. Termaat will contact FTO Engineering and once the complete listing of FTO parts and components containing asbestos has been compiled, your listing should be amended.

Upon receipt of the FTO listing, our Procurement Planning and Control Department at Troy will coordinate the study for substitutions.
