# Solutia Education Connection Program
## Technology for Alabama Schools

*What:* Solutia Fund program to provide computers and/or related technology to public schools in and near Alabama communities with Solutia plants - Anniston, Decatur & Foley

*Why:*
* Strengthen company ties to Alabama communities.
* Respond to community needs identified by leadership
* Prepare Alabama students for future technology based opportunities

*Rationale:* Supporting Solutia Fund's long-term commitment to science & technology education for benefit of communities in which it has a significant presence, in which its employees live and from which its future employees will come

*Where:*
Anniston: Calhoun, Cleburne, St. Clair & Talladega Counties
Decatur: Morgan, Lawrence & Limestone Counties
Foley: Baldwin County

*Who:* All public schools & school districts [county & city] eligible

*Program:*
* Offer to provide computers and/or related technology to improve technology access and programs, especially in sciences
* Solutia to work with small teams of educators from each school district to determine needs & how Solutia can best help
* Seek projects with broad impact within school district, complementing or expanding science & technology curriculum
* Priority on programs at high school level, but not restricted
* Initial program components in place by Fall 1999 or before

*Timing:* 3 year program commitment
