Dear Mr Johnson

REGISTER OF CASES OF ANGIOSARCOMA
OF THE LIVER DUE TO VCM

I wonder if you have been able to obtain any information regarding case US.36 in the above world Register, about which I wrote to you on 31st August? I am about to commence detailed preparation of the next edition of the Register, with information as at 1.1.89, and it would be very helpful indeed if you were able to say whether or not the man is still alive.

With many thanks

Yours sincerely

Anni Bennett

Dear Mr Johnson

I keep and compile the world Register of Cases of Angiosarcoma of the Liver due to VCM and it has been suggested to me by Dr Dietz of BF Goodrich, Akron, that you may be able to help me concerning case US.36, an employee of your Company.

As you will see from the enclosed copy of the entry in the 1988 Register, we have good information about this case, but we would like to know whether the man is still alive, and if not the date of death, please. I hope you will be able to identify the man from the details given, although there is no name, which we do not have.

I look forward to hearing from you.

Yours sincerely

Dr B Bennett

Dear Mr Johnson

ASL REGISTER

As you know I try to keep this Register as complete and up-to-date as possible, and I wonder if you can help us in connection with case US.36.

For convenience I enclose a copy of page 30 of the 1989 Register and you will see that there are no initials against this case. Can you supply these, please?

Also can you say whether this man is still alive, and if not can you tell me the date of death. You will see that the diagnosis was made in 1983.

I shall be most grateful for any further information. We are beginning to collect all the material together for the next edition of the Register, for which the 'closing date' is 31 December 1989, but of course I would like to hear from you as soon as possible.

Kind regards

Yours sincerely

B BENNETT
