Mr. Paul Zalon
Nestles Food Corporation
100 Manhattanville Road
Purchase, NY 10577

Dear Paul:

Per our telephone conversation, I am sending you a copy of the Federal Register Vinyl Chloride Polymers proposal published in 1986. This is a proposed rule that FDA has not finalized to date. Also enclosed, is a table listing the proposed residual vinyl chloride monomer (RVCM) levels as they apply to the various uses. Although the RVCM levels are not binding, only proposed, they have been adopted by the industry as standards.

I have also included the official test method for RVCM.

If you have any further questions, please do not hesitate to contact me at (216) 374-3422.

Sincerely,

THE BFGOODRICH COMPANY
