DOW CHEMICAL U.S.A.

MIDLAND, MICHIGAN 48674

March 28, 1988

Mrs. Meredith N. Scheck, Assistant Manager
The Vinyl Institute
Wayne Interchange Plaza II
155 Route 46 East
Wayne, NJ 07470

Dear Meredith:

Sorry I had to zing out of the meeting in Philadelphia. I didn't want to break up the conversation with my exit.

I have been working on the NEXIS search we discussed at the meeting. (My initiation as a real member is complete -- I've done some work for the group.) Enclosed you'll find part of what I found.

NEXIS OMNI Library:

- (E) 54 references for vinylidene chloride in the general library, enclosed.
- 1,121 references for vinyl chloride, not enclosed. Too many citations.
- 3,988 references for polyvinyl chloride, not enclosed.
- (A) 6 references for vinyl pipe, enclosed on the top of scroll two.

ASAP II Library

- 0 references for vinylidene chloride.
- (B) 40 references for vinyl chloride, enclosed.
- 141 references for polyvinyl chloride, being mailed to me. Will forward.
- 0 references for vinyl pipe.

MEDLINE Library (medical reports)

- (C) 11 references for vinylidene chloride, enclosed.
- 170 references for vinyl chloride, being mailed. Will forward.
- (D) 190 references for polyvinyl chloride, being mailed. Will forward.
- 0 references for vinyl pipe.

VFA 000010592

We can get complete listings for the thousands of articles cited above. I just can't do it here. Our terminal is only authorized to request a few hundred articles at once (big bucks). If the committee were so interested, I'm certain we could pursue it through NEXIS.

I'll mail the remaining listings as soon as I get them. If you have suggestions for altering the search, just give me a call. Be glad to take another direction

Sincerely,

A handwritten signature in cursive script, appearing to read "Brad".

Brad Snook
