Thanks [REDACTED]

I read it a few weeks ago and think that there are some very helpful elements in it that may be useful for dossier submitters such as the structure, the examples and example text proposals. It may help in this sense to use it and provide feedback whether it works. Anyway, we will do so for DMAC/NEP.

Cheers, [REDACTED]

Hi [REDACTED] all

I just wanted to emphasize that the guidance paper on uncertainty analysis shouldn't be seen as something very prescriptive. Where it is helpful, use it; where you feel it is not, adapt it to your needs. In any case, we would be happy to receiving feedback on what was or was not useful.

Best

Dear [REDACTED] all,

Thank you for sharing the slides.

I am attaching the draft guidance for uncertainty analysis [REDACTED] mentioned in the meeting yesterday. This was presented in the Restriction Task Force meeting last month and is yet to be finalised (by the end of the year/early next year). As you will see, after an introductory part, the document has two parts – one dealing with uncertainty analysis when preparing Annex XV restriction dossiers (i.e. this is relevant for you as Dossier Submitter), and one dealing with uncertainty analysis when preparing opinions on Annex XV restriction dossiers (i.e. this will be relevant for RAC and SEAC).

Best regards

Dear all,

Minutes/ summary notes will be shared later on.

Best regards,

Dear all,

Please find attached the draft agenda for the monthly WP7 meeting scheduled on Wednesday the 17th of November from 13:00 15:30.

If you have topics for the draft agenda and/or suggestions, please do not hesitate to contact me.

Feel free to share this agenda and the meeting invitation with your colleagues and, please, consider whether you find it useful to ask your WP4 colleagues to join the meeting in view of agenda item 3 "Discussion on tonnage estimates as proxy for risk".

Looking forward to discussing the topics with you on Wednesday.

Best regards,

M:|
