To (Name)	L. A. Kapicak	Date	October 29, 1986
Division	770-240		
Location	511	Originating Dept.	EM&TS - HS&EA
Area			
		Area	Industrial Hygiene
Copy to	C. P. Maxwell - 701/256	Subject	Asbestos Area Monitoring
	R. E. Sergent - 704/2		
	P. D. Sherman - 701/254		
	P. H. Wadia - 770/304		

Attached are the monitoring results of the Asbestos Area samples collected in 770-137 on October 23, 1986. The samples were collected to determine the level of airborne fibers present in this lab. Insulators had cleaned, from the floor area, Asbestos containing materials the evening of October 22, 1986.

The samples when counted did not show fiber count any greater then the blank samples and therefore, the results are well below the 0.1 fiber/cc action level, established by OSHA for an 8-hour workday.

If we can be of further assistance, please call us on extension 4779 or 3750.
