TO: Medical Examining Personnel

SUBJ: Merchant Marine Personnel Physical Examination Standards; advisement of:

1. It has been found that some confusion can arise as to what standards are to be applied prior to considering an applicant (competent) or (incompetent) to perform his or her required duties. To assist you in making this determination below are listed extracts from Title 46 Code of Federal Regulations 10.02-5(e), Part 12, Part 187 and 310.6(a)(3) for your guidance:

(a) No examination is required for Ordinary Seaman, or Wiper. However, for Stewards Department (FH) (Food Handler) (46 CFR 12.25-20), the applicant must be free from communicable disease.

(b) 46 CFR 10.02-5(e)(2) states that epilepsy, insanity, senility, acute venereal disease or neurosyphilis, badly impaired hearing or other defects that would render the applicant incompetent to perform their ordinary duties at sea are causes for certification as incompetent.

(c) ABLE SEAMAN: Same as for an Original License as Deck Officer (see below).

(d) QUALIFIED MEMBER ENGINE DEPARTMENT (OMED): Same as for an Original License as Engineer (see below).

(e) TANKERMAN: Same as for an Original License as Engineer, EXCEPT the color vision test will be as for a deck officer.

(f) DECK LICENSE: (Master, Mate, Pilot, Operator) - Applicant must have uncorrected vision of at least 20/100 in both eyes correctable to at least 20/20 in one eye and 20/40 in the other. Color sense will be tested by Pseudoisochromatic Plate Test.

(g) ENGINEER's LICENSE: Applicant must have uncorrected vision of at least 20/100 in both eyes correctable to at least 20/30 in one eye and 20/50 in the other. Engineers are only required to distinguish the colors red, blue, green and yellow.

(h) MARITIME SERVICE CADETS: Meet the same standards for Original License as a Merchant Marine Officer (DECK or ENGINEER, respectively).

2. Your cooperation in using these minimum standards will be appreciated.
