Subject: Follow-up steps based on thinking sessions essential uses of persistent chemicals
Received: Fri 5/7/2021 12:46:57 PM

Dear 5.1.2e

Thank you very much for your participation in one of the thinking session, addressing the possible societal goals to which the use of persistent chemicals should contribute to qualify as an 'essential use'. During the sessions, the interim results of each session were shared with the attendees. Furthermore, the Argumentation factory processed the results of all three sessions, resulting in an argumentation map of societal goals. We are now busy with preparing a document summarizing the outcomes of the sessions and putting the result in the context of the (scientific) discussion on the concept of essential use. We intend to publish the document in a peer-reviewed journal. As soon as the paper is accepted for publication and can be referenced we will share the results with you. The results of the sessions will also feed into our follow-up research on the concept of essential use.

In case you have any questions feel free to contact us.

Kind regards,

5.1.2e

RIVM
