

SHERWIN-WILLIAMS PAINTS & VARNISHES

THE first thing to know about paints and varnishes is that house paint will not do for iron work and that piano varnish will not do for floors.

This is true of all surfaces—each requires a different treatment.

Your problem, therefore, is to find the paint or varnish best suited to the particular surface you wish to cover.

We have worked out this problem for you—for everybody—for every surface. We have the right quality; the quality that beautifies and protects longest on the surface for which it is intended. It is on this right quality that we have built up the largest paint and varnish business in the world.

THE SHERWIN-WILLIAMS CO.

Everyone who believes quality is the most important thing about a surface treatment should

write for our booklet,
"Who Makes the Best
Paints and Varnishes?"

Brighten Up

"That's my advice to you. You've seen it in the windows of good paint stores. Now you see it here. It means paint and varnish and everything that makes the home bright—outside and inside. It means 'spring' and 'cheerfulness' and 'boost,' and finally

**SHERWIN-WILLIAMS
PAINTS & VARNISHES**

—the real 'brighten-up' stuff."

—The Little Paint Man.

"BRIGHTEN UP" as we use it is a broad term. It means not only home surroundings but also all surfaces with which mankind comes in contact; it means not only beauty, freshness and pleasing effects, but also protection that is lasting. Whatever the surface—a piano or a bridge, a buggy or a boiler, a floor or a freight car—there is a Sherwin-Williams product for it and it is the best for it. Tell us the surface you wish to treat and we will send you a book about it.
