DOC#: SDV037

DOCUMENT DESCRIPTION: Handwritten Letter to Laurie from Barry Castleman
RE Shree Digvijay File

Barry Castleman, Sc.D.

Environmental Consultant

May 2, 2008

Laurie,

Here are some items from my Shree Digvijay file that you may want to scan and share with some of our friends in India. I showed the photos to J-M Vice President, Dr. Paul Kotin, around July 1980 not realizing how long the New Scientist article would be delayed. Before that time, J-M's communications were not prompted by outside pressure or publicity.

The Aug. 11, 1980 letter reviews the situation, quoting from earlier communications between J-M and S-D, I hope you can read the highlighted parts. The Oct. 22, 1981 newspaper story was accompanied by an editorial, attached following. The first document following, I have only page 3.

With its bankruptcy filing in 1982 or before, J-M sold its interest in Shree Digvijay along with all its asbestos properties that could be sold.

Barry
