DIRECTIONS

Fibrex Cement is an asphalt
cement with quick setting, high
strength characteristics intended
for use as an adhesive for Flint-
kote Cold Process Felts. Such
felts shall be dry. Fibrex Cement
shall be applied by brush or
spray at the rate of 1½ gallons
per 100 square feet. Do not heat
material over 100°F. nor over
open flame.

Keep container covered when
not in use. Follow manufacturer's
instructions in use of spray
equipment.

USES

This material has been especially
developed for use in accordance
with the Flintkote specifications
embracing the following methods
of roof maintenance and roof
construction:
