

1 Q And during this first time period of his
2 symptoms in October of 1992, it is my understanding he
3 continued to try and work for a little while?

4 A After they drained his lungs, he wanted to
5 go back the following week. But he went to work, but
6 it was about three hours later his car pulled up out
7 front, and one of the guys had to bring him home.

8 He couldn't work, so I took him back to the
9 doctor's again, and he had to have the lungs drained
10 again.

11 Q And did he continue to try and work after
12 that date?

13 A He tried, but he couldn't do it. He would
14 go in, and they would bring him back home.

15 Q Do you know for how long that lasted, that
16 he continued to try?

17 A Maybe about a week and a half.

18 Q On his visits to the doctors that you have
19 described, and the subsequent visits, who took him?

20 A I did. I took him to all of his doctors'
21 appointments, every one.
