Robert Kehoe, M. D.
Kittering Laboratory
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Kehoe:

Would you kindly send information concerning lead poisoning to the writer. I have two cases, males, 30 and 37 years old, housepainters for fifteen years, who have lead poisoning clinically. I would be interested in any information concerning treatment program etc., that you could furnish me. If any kits and instructions are available I would appreciate two sets.

Sincerely yours,

Albert R. Kolar
