Obsolete Batch Materials

W. Merz
P.H. Scheuerle

The following list of batch materials shows material made obsolete because of the new Asbestos-Free product line.

<u>Code</u>	<u>Description</u>	<u>Standard Cost</u>
Direct Charge	SS10 glass	\$2100.00
11MD125	Black Iron	450.00
11MD035	Chromite	55.00
11MD030	US Clay	100.00
11MD055	4T Asbestos	850.00
11MD060	7D Asbestos	1000.00
	Total Cost	\$4555.00

We request a charge account to write this material off to Marketing. Please keep in mind that in addition to the above material, we have in inventory approximately \$95,000. of African asbestos. The plant is making an attempt to sell this material. I would suggest that we begin to devalue the inventory in anticipation of a sale at less than cost or not at all.
