1940 through the present.

12. The term "asbestos" or "asbestos product", unless otherwise specified, includes any mined, converted, fabricated, processed or rebranded product or compound which has been manufactured, supplied, delivered, distributed, consigned or otherwise placed into the stream of commerce and which contains any asbestos or chrysotile amosite, crocidolite, tremolite, anthophyllite or actinolite, whether in their raw or natural state. The term specifically includes, but is not limited to, friction products containing asbestos, including brake linings, brake facings, molded brake linings, roll brake linings, disc pads, asbestos-containing adhesives or any other friction material containing asbestos.

13. THESE INTERROGATORIES ARE DEEMED CONTINUING AND SUPPLEMENTAL ANSWERS SHALL BE REQUIRED PURSUANT TO CR 26(e).

SECTION 1.0

INTERROGATORIES

1.01 Identify each person by name, address and position of each person who prepared answers or was consulted with regard to answering these interrogatories or supplying information used in answering these interrogatories, including experts, and as to each interrogatory, please state either at the conclusion of the answer thereto or at the conclusion of all the answers the name, addresses and positions of the persons who answered, supplied the information
