Please see attached draft policies that were prepared by staff. These were not reviewed or surnamed by Gary Frazier, myself, or ASFWP before being delivered to DS so they were only an early draft to contemplate.

As this point we no longer consider these to be working documents.

David -- Per your request yesterday, here are the initial draft revised mitigation policies that are beginning to move into surname. They have not reached my desk yet, and I have not yet reviewed them.

The first document is the Service-wide mitigation policy, which is short enough to include in its entirety within the FR notice.

The second is the ESA compensatory mitigation policy, which steps down the Service-wide policy to address applications under the ESA
